TA-8830 | MediaHub™ SL+

Flush-Mounted Slim Line Auto-Switching Connectivity Panel allows guests to connect their portable electronic devices to the in-room flat screen TV or sound system. Guests use MediaHub to play their own movies, music, games, and even business presentations on the in-room TV.

The MediaHub SLi's sleek, compact design mounts easily into the wall or casegoods.

- Slim-Line Design provides same auto-switching AV connectivity of MediaHub in a smaller footprint.
- Truly plug-and-play, automatically senses connected content and switches TV to the correct input. Automatically senses disconnect and switches TV back to regular programming.
- Compatible with hospitality's most popular TV brands and VOD/PPV systems.
- Supports wide range of portable devices such as laptops, tablets, game consoles, smart phones, DVD/Blu-ray and much more.
- Includes high-current USB charging port that fast-charges wide range of portable devices, including iPads®.
- Simple to install in furniture or in wall. Installation cables included.
- iPod-friendly, use standard iPod AV cable or combine with TeleAdapt iDock™ (sold separately).
- Affordable and scalable to fit any budget. Scale down to a passive version or scale up to model that includes iPod docking.
- Can be deployed worldwide.

TA-8830 | MediaHub™ SL+

Add iDock™ for a dedicated iPod®, iPhone®, iPad® docking solution for your guests, no guest cables required (Combination model name: MediaHub SLi™).
